

# Genhack 2 - Generative Modelling Challenge

## COMPLETION CERTIFICATE

The Chair Stress Test, RISK Management and Financial Steering, created by École polytechnique, Fondation de l'École polytechnique and BNP PARIBAS, has conferred to

**Achraff ADJILEYE**

the Genhack 2 completion certificate upon the delivery of satisfactory numerical models evaluated by the jury.

The Generative Modelling Challenge 2022 is a 1month data challenge on generative models to study the evolution of ocean temperature spatially and across the years in the context of climate change, based on real data.
